

## **Response of the Scottish Higher Education Funding Council to the Final Report of the Research Support Libraries Group**

The Scottish Higher Education Funding Council, in committee, has considered the final report of the Research Support Libraries Group. The committee welcomed the work of the RSLG, recognising the need for a more tightly co-ordinated approach for improving the information requirements of researchers. Once further work has been undertaken to define the scope, remit and cost of the RSLG recommendations, the Council will consider the proposal in full.
